

**Climate Change in the American Mind: National Survey Data on Public Opinion (2008-2017)**  
**Survey Methods, Codebook, and Data Tables**  
**April 17, 2019**

**Survey Methods**

Data are based on 17 waves of nationally representative surveys of U.S. adults aged 18 and older. As shown in Table 1, surveys were conducted once in 2008 and then twice a year from 2010 to 2017. All questionnaires were self-administered by respondents in a web-based environment. The questions included in this dataset represent a small portion of those asked in the complete surveys.

Samples were drawn from GfK's KnowledgePanel<sup>®</sup>, an online panel of members drawn using probability sampling methods. Prospective members were recruited using a combination of random digit dial and address-based sampling techniques that cover virtually all (non-institutional) resident phone numbers and addresses in the United States. Those contacted who chose to join the panel but did not have access to the Internet were loaned computers and given Internet access so they could participate. The sample therefore includes a representative cross-section of American adults – irrespective of whether they had Internet access, used only a cell phone, etc.

**Sample Details by Wave**

Wave	N	Dates Fielded
November 2008	2,164	October 7 – November 12
January 2010	1,001	December 24, 2009 – January 3, 2010
June 2010	1,024	May 14 – June 1
May 2011	1,010	April 23 – May 12
November 2011	1,000	October 20 – November 16
March 2012	1,008	March 12 – March 30
September 2012	1,061	August 31 – September 12
April 2013	1,045	April 10 – 15
November 2013	830	November 23 – December 9
April 2014	1,013	April 15 – 22
October 2014	1,275	October 17 – 28
March 2015	1,263	February 27 – March 10
October 2015	1,330	September 30 – October 19
March 2016	1,204	March 18 – 31
November 2016	1,226	November 18 – December 1
May 2017	1,266	May 18 – June 6
October 2017	1,304	October 20 – November 1
Total out of 17 waves	20,024	--

## **Sampling Error**

All samples are subject to some degree of sampling error – that is, statistical results obtained from a sample can be expected to differ somewhat from results that would be obtained if every member of the target population were interviewed. The margin for error for each wave is plus or minus 3 percentage points at the 95% confidence level, except November 2008 where the margin of error is plus or minus 2 percentage points. Margins of error become smaller when combining multiple waves for analysis (e.g., the margin of error for each year is typically plus or minus 2 percentage points). Margins of error become larger when examining smaller subgroups of the population (e.g., political party).

## **Rounding Procedure**

Percentage points are rounded to the nearest whole number or decimal place. As a result, percentages in a given chart may total slightly higher or lower than 100%. Summed response categories (e.g., "strongly agree" + "somewhat agree") are rounded after sums are calculated (e.g.,  $1.3\% + 1.3\% = 2.6\%$ , which, after rounding =  $3\%$ ). Also, percentages below 0.50% were rounded down and those that were 0.50% or above were rounded up (e.g., after rounding,  $2.49\% = 2\%$  and  $2.51\% = 3\%$ ).

## **Sampling Weights**

Once the surveys were fielded and all survey data were collected, sampling weights were computed for each respondent. Data were weighted based on key demographic variables to match U.S. Census Bureau norms. Data from the Current Population Survey (CPS), the American Community Survey (ACS), and/or demographic profile data from the Knowledge Panel® of U.S. adults age 18 or older were used as benchmarks for the raking adjustment of weights. Data were typically weighted by respondents' age, gender, race/ethnicity, Census region, metropolitan status, education, and income.

There are two weight variables in the dataset. The variable "weight\_wave" refers to the sampling weights that were computed for each wave of data collection. Because sample sizes vary from wave to wave, we computed a "weight\_aggregate" variable that standardizes the sampling weights so data can be analyzed at an aggregate level (i.e., combining waves of data), adjusting for sample size differences across waves. We computed "weight\_aggregate" by (1) dividing the "weight\_wave" variable by the sample size of each respective wave, and then (2) by multiplying these values by the average sample size of all 17 waves (total  $N = 20,024 / 17$  waves =  $1,177.88...$ ) so that the total weighted sample size of the entire dataset equals the unweighted sample size ( $N = 20,024$ ).

Sampling weights should be applied for all descriptive analyses. We advise using the "weight\_wave" sampling weight when conducting descriptive analyses for a specific wave and the "weight\_aggregate" sampling weight when aggregating multiple waves (e.g., across years). To obtain accurate frequencies or counts ( $n$ ), sampling weights need to be turned off.

## Running Crosstabs with SPSS

In SPSS, the default when analyzing data using crosstabs is to round cell counts. However, sampling weights can make cell counts nonintegers (i.e., frequencies that are no longer whole numbers). When running crosstabs in SPSS, make sure there are no adjustments to noninteger weights (in the Crosstabs menu, click the Cells button, and select the option that says “No adjustments” beneath “Noninteger weights”).

## Refusals and Descriptive Analyses

Respondents were not required to answer all questions in the survey. For every question, refusals were coded as -1 (see below for codebook). For descriptive analyses, refusals should always be considered as valid responses when reporting percentages. For example, if 5% of the sample refused to answer the question, the other responses should sum to 95%.

### Climate Change in the American Mind (2008-2017) Codebook

The following tables include information on the variable names in the dataset, survey questions and response options, and the number of waves the questions were included in. The response options for many questions can be collapsed into single categories. For example, for measuring how worried respondents are about global warming “very worried” and “somewhat worried” can be combined into a single measure of “worried.” For more information on computing these categories, visit the [Climate Change in the American Mind \(CCAM\) Explorer](#) and/or download our SPSS syntax on our [Open Science Framework](#) page.

Variable Name	Survey Question	Response Options	Included in Waves
case_ID	Case identifier	--	All waves N = 20,024
wave	Survey wave	1. Nov 2008 2. Jan 2010 3. Jun 2010 4. May 2011 5. Nov 2011 6. Mar 2012 7. Sep 2012 8. Apr 2013 9. Nov 2013 10. Apr 2014 11. Oct 2014 12. Mar 2015 13. Oct 2015 14. Mar 2016 15. Nov 2016 16. May 2017 17. Oct 2017	All waves N = 20,024

weight_aggregate	Sampling weight if aggregating multiple waves	--	All waves N = 20,024
happening	Recently, you may have noticed that <u>global warming</u> has been getting some attention in the news. Global warming refers to the idea that the world's average temperature has been increasing over the past 150 years, may be increasing more in the future, and that the world's climate may change as a result. What do you think: Do you think that global warming is happening?	-1. Refused 1. No 2. Don't know 3. Yes	All waves N = 20,024
cause_original	Assuming global warming is happening, do you think it is...	-1. Refused 1. Caused mostly by human activities 2. Caused mostly by natural changes in the environment 3. Other (Please specify) 4. None of the above because global warming isn't happening	All waves N = 20,024
cause_other_text	[Other - Specify] Assuming global warming is happening, do you think it is...	Open-ended responses to the "cause_original" question were coded to form a new variable: "cause_recoded"	All waves N = 20,024
cause_recoded	Assuming global warming is happening, do you think it is... (Recoded to include open-ends)	-1. Refused 1. Don't know 2. Other 3. Neither because global warming isn't happening 4. Caused mostly by natural changes in the environment	All waves N = 20,024

		5. Caused by human activities and natural changes 6. Caused mostly by human activities	
sci_consensus	Which comes closest to your own view?	-1. Refused 1. Don't know enough to say 2. There is a lot of disagreement among scientists about whether or not global warming is happening 3. Most scientists think global warming is not happening 4. Most scientists think global warming is happening	16 waves Not asked in Oct 2015 N = 18,694
worry	How worried are you about global warming?	-1. Refused 1. Not at all worried 2. Not very worried 3. Somewhat worried 4. Very worried	All waves N = 20,024
harm_personally	[The following five risk perception questions were asked together as a set] How much do you think global warming will harm: You personally	-1. Refused 0. Don't know 1. Not at all 2. Only a little 3. A moderate amount 4. A great deal	All waves N = 20,024
harm_US	How much do you think global warming will harm: People in the United States	-1. Refused 0. Don't know 1. Not at all 2. Only a little 3. A moderate amount 4. A great deal	All waves N = 20,024
harm_dev_countries	How much do you think global warming will harm: People in developing countries	-1. Refused 0. Don't know 1. Not at all 2. Only a little 3. A moderate amount	All waves N = 20,024

		4. A great deal	
harm_future_gen	How much do you think global warming will harm: Future generations of people	-1. Refused 0. Don't know 1. Not at all 2. Only a little 3. A moderate amount 4. A great deal	All waves N = 20,024
harm_plants_animals	How much do you think global warming will harm: Plant and animal species	-1. Refused 0. Don't know 1. Not at all 2. Only a little 3. A moderate amount 4. A great deal	16 waves Not asked in Oct 2015 N = 18,694
when_harm_US	When do you think global warming will start to harm people in the United States?	-1. Refused 1. Never 2. In 100 years 3. In 50 years 4. In 25 years 5. In 10 years 6. They are being harmed right now	All waves N = 20,024
reg_CO2_pollutant	How much do you support or oppose the following policies? Regulate carbon dioxide (the primary greenhouse gas) as a pollutant.	-1. Refused 1. Strongly oppose 2. Somewhat oppose 3. Somewhat support 4. Strongly support	16 waves Not asked in May 2011 N = 19,014
reg_utilities	How much do you support or oppose the following policies? Require electric utilities to produce at least 20% of their electricity from wind, solar, or other renewable energy sources, even if it costs the average household an extra \$100 a year.	-1. Refused 1. Strongly oppose 2. Somewhat oppose 3. Somewhat support 4. Strongly support	13 waves Not asked in Oct 2015, Mar and Nov 2016, and May 2017 waves N = 14,998
fund_research	How much do you support or oppose the following policies?	-1. Refused 1. Strongly oppose	All waves N = 20,024

	Fund more research into renewable energy sources, such as solar and wind power.	2. Somewhat oppose 3. Somewhat support 4. Strongly support	
reg_coal_emissions	How much do you support or oppose the following policy?  Set strict carbon dioxide emission limits on existing coal-fired power plants to reduce global warming and improve public health. Power plants would have to reduce their emissions and/or invest in renewable energy and energy efficiency. The cost of electricity to consumers and companies would likely increase.	-1. Refused 1. Strongly oppose 2. Somewhat oppose 3. Somewhat support 4. Strongly support	10 waves Not asked between 2008 to 2012 and asked only to half of the sample ( $n = 421$ ) in Nov 2013—these data are not included in the dataset $N = 10,926$
discuss_GW	How often do you discuss global warming with your family and friends?	-1. Refused 1. Never 2. Rarely 3. Occasionally 4. Often	All waves $N = 20,024$
hear_GW_media	About how often do you hear about global warming in the media (TV, movies, radio, newspapers/news websites, magazines, etc.)?	-1. Refused 0. Not sure 1. Never 2. Once a year or less often 3. Several times a year 4. At least once a month 5. At least once a week	6 waves Not asked between 2008 – 2014 and in Nov 2016 wave $N = 6,367$
gender	Are you...?	1. Male 2. Female	All waves $N = 20,024$
age	How old are you?	Open-ended	All waves $N = 20,024$
age_category	Computed based on open-ended response to age	1. 18-34 years 2. 35-54 years 3. 55+ years	All waves $N = 20,024$
generation	Computed based on respondents' age at the time of data collection. Given that generation	1. iGen/Gen Z (1997 – ) 2. Millennials (1981 – 1996)	All waves $N = 20,024$

	is estimated, some respondents may be miscategorized.	3. Generation X (1965 – 1980) 4. Baby Boomers (1946 – 1964) 5. Silent (1928 – 1945) 6. Greatest (Before 1928)	
educ	What is the highest level of school you have completed?	1. No formal education 2. 1 <sup>st</sup> , 2 <sup>nd</sup> , 3 <sup>rd</sup> , or 4 <sup>th</sup> grade 3. 5 <sup>th</sup> or 6 <sup>th</sup> grade 4. 7 <sup>th</sup> or 8 <sup>th</sup> grade 5. 9 <sup>th</sup> grade 6. 10 <sup>th</sup> grade 7. 11 <sup>th</sup> grade 8. 12 <sup>th</sup> grade no diploma 9. High school graduate – high school diploma or the equivalent (GED) 10. Some college, no degree 11. Associate’s degree 12. Bachelor’s degree 13. Master’s degree 14. Professional or doctorate degree	All waves N = 20,024
educ_category	Responses to “educ” were categorized into four groups: responses 1-8 were coded as “Less than high school”, 9 was coded as “High school,” 10 and 11 were coded as “Some college,” and 12-14 were coded as “Bachelor’s degree or higher”	1. Less than high school 2. High school 3. Some college 4. Bachelor’s degree or higher	All waves N = 20,024
income	We would like to get a better estimate of your total HOUSEHOLD income in the past 12 months before taxes. Was it...	1. Less than \$5,000 2. \$5,000 to \$7,499 3. \$7,500 to \$9,999 4. \$10,000 to \$12,499 5. \$12,500 to \$14,999 6. \$15,000 to \$19,999 7. \$20,000 to \$24,999 8. \$25,000 to \$29,999	All waves N = 20,024 Response options changed from Mar 2016 on to include higher levels of income

		9. \$30,000 to \$34,999 10. \$35,000 to \$39,999 11. \$40,000 to \$49,999 12. \$50,000 to \$59,999 13. \$60,000 to \$74,999 14. \$75,000 to \$84,999 15. \$85,000 to \$99,999 16. \$100,000 to \$124,999 17. \$125,000 to \$149,999 18. \$150,000 to \$174,999 19. \$175,000 to \$199,999 ["\$175,000 or more" Nov 2008 – Mar 2016] 20. \$200,000 to \$249,999 [Nov 2016 on] 21. \$250,000 or more [Nov 2016 on]	
income_category	Responses to "income" were categorized into the following three groups.	1. Less than \$50,000 2. \$50,000 to \$99,999 3. \$100,000 or more	All waves N = 20,024
race	Respondents were first asked "Are you Spanish, Hispanic, or Latino?" Respondents who said "Yes" were coded as 4 = "Hispanic." Following this question, all respondents were asked to "Please choose one or more race(s) that you consider yourself to be" with 6 response options, "White," "Black or African American," "American Indian or Alaska Native," "Asian," "Native Hawaiian or other Pacific Islander," or "Some other race." Respondents who said they were not Spanish, Hispanic, or Latino to first question and said "White" were coded as 1 = "White, non-Hispanic;" "Black or African American" were coded as 2 = "Black, non-Hispanic;" "American Indian or Alaska	1. White, non-Hispanic 2. Black, non-Hispanic 3. Other, non-Hispanic 4. Hispanic	All waves N = 20,024

	Native,” “Asian,” “Native Hawaiian or other Pacific Islander,” or “Some other race” were coded as 3 = “Other, non-Hispanic.” Respondents who said they were not Spanish, Hispanic, or Latino and selected more than one race were also coded as 3 = “Other, non-Hispanic”		
ideology	In general, do you think of yourself as...	-1. Refused 1. Very liberal 2. Somewhat liberal 3. Moderate, middle of the road 4. Somewhat conservative 5. Very conservative	All waves N = 20,024
party	Generally speaking, do you think of yourself as a...	-1. Refused 1. Republican 2. Democrat 3. Independent 4. Other; please specify: 5. No party/not interested in politics	All waves N = 20,024
party_w_leaners	Computed based on responses to “party” and a follow-up question “Do you think of yourself as closer to the...” with four response options, “Republican Party,” “Democratic Party,” “Neither,” or “No response.” Respondents who initially identified as either a Republican or Democrat, as well as those who did not initially identify as “Republican” or “Democrat” but who say they “are closer to” one party or the other (i.e., “leaners”) in the follow-up question were categorized as Republican or Democrat, respectively. The category “Independents” does not include any of these leaners, only those who chose “Independent” or “Other” to the “party” question.	-1. Refused 1. Republicans 2. Democrats 3. Independent/Other 4. No party/not interested in politics	All waves N = 20,024

party_x_ideo	<p>Computed based on responses to the “party_w_leaners” and “ideology” items. Democrats were categorized as “Liberal Democrats” if they said they are “Very” or “Somewhat” liberal, or “Conservative/Moderate Democrats” if they said they are “Moderate, middle of the road” or “Very” or “Somewhat” conservative. Similarly, Republicans who self-reported that they are “Very” or “Somewhat” conservative were categorized as “Conservative Republicans,” whereas those who said they are “Moderate, middle of the road” or “Very” or “Somewhat” liberal were categorized as “Liberal/Moderate Republicans.” The category “Independent (non-leaning)” refers to those categorized as “Independent/Other” in the “party_w_leaners” variable.</p>	<p>-2. No party/not interested in politics</p> <p>-1. Refused</p> <ol style="list-style-type: none"> <li>1. Liberal Democrat</li> <li>2. Moderate/Conservative Democrat</li> <li>3. Independent (non-leaning)</li> <li>4. Liberal/Moderate Republican</li> <li>5. Conservative Republican</li> </ol>	<p>All waves N = 20,024</p>
registered_voter	<p>Are you registered to vote? [Nov 2008 – Apr 2012]</p> <p>Are you currently registered to vote, or not? [Sep 2012 on]</p>	<p>-1. Refused</p> <ol style="list-style-type: none"> <li>1. Registered [“Yes” Nov 2008 – Apr 2012]</li> <li>2. Not registered [“No” Nov 2008 – Apr 2012]</li> <li>3. Not sure [Nov 2008 – Apr 2012]</li> <li>4. Don’t know [Sep 2012 on]</li> <li>5. Prefer not to answer [Sep 2012 on]</li> </ol>	<p>All waves N = 20,024</p> <p>Question wording and response options changed from Apr 2012 to Sep 2012</p>
region9	<p>Computed based on state of residence: New England = CT, MA, ME, NH, RI, VT; Mid-Atlantic = NJ, NY, PA; East-North Central = IL, IN, MI, OH, WI; West-North Central = IA, KS, MN, MO, ND, NE, SD; South Atlantic = DC, DE, FL, GA, MD, NC, SC, VA, WV; East-South Central = AL, KY, MS, TN; West-South Central = AR, LA, OK,</p>	<ol style="list-style-type: none"> <li>1. New England</li> <li>2. Mid-Atlantic</li> <li>3. East-North Central</li> <li>4. West-North Central</li> <li>5. South Atlantic</li> <li>6. East-South Central</li> <li>7. West-South Central</li> </ol>	<p>All waves N = 20,024</p>

	TX; Mountain = AZ, CO, ID, MT, NM, NV, UT, WY; Pacific = AK, CA, HI, OR, WA.	8. Mountain 9. Pacific	
region4	Computed based on "region9": Northeast = New England, Mid-Atlantic; Midwest = East-North Central, West-North Central; South = South-Atlantic, East-South Central, West-South Central; West = Mountain, Pacific.	1. Northeast 2. Midwest 3. South 4. West	All waves N = 20,024
religion	What is your religion?	-1. Refused 1. Baptist – any denomination 2. Protestant (e.g., Methodist, Lutheran, Presbyterian, Episcopal) 3. Catholic 4. Mormon 5. Jewish 6. Muslim 7. Hindu 8. Buddhist 9. Pentecostal 10. Eastern Orthodox 11. Other Christian 12. Other – non-Christian (Please specify) 13. Agnostic [Apr 2014 on] 14. Atheist [Apr 2014 on] 15. None of the above [Apr 2014 on; "None" Nov 2008 – Dec 2013]	All waves N = 20,024 Response options changed from Apr 2014 on
religion_other_nonchristian	[Other – non-Christian – specify] What is your religion?	Open-ended responses to the "religion" question	All waves N = 20,024
evangelical	Would you describe yourself as "born-again" or evangelical?	-1. Refused 1. Yes 2. No 3. Don't know	All waves N = 20,024
service_attendance	How often do you attend religious services?	-1. Refused 1. Never	All waves N = 20,024

		2. Once a year or less 3. A few times a year 4. Once or twice a month 5. Once a week 6. More than once a week	
marit_status	Respondents were first asked “Are you now...?” with response options 1-5. Respondents who indicated they were not “Married” (i.e., responses 2-5) were asked a follow-up, “Are you currently living with a partner to whom you are not married?” Respondents who said “Yes” were coded as 6 = “Living with partner”	1. Married 2. Widowed 3. Divorced 4. Separated 5. Never married 6. Living with partner	All waves N = 20,024
employment	Do any of the following currently describe you?	1. Working – as a paid employee 2. Working – self-employed 3. Not working – on temporary layoff from a job 4. Not working – looking for work 5. Not working – retired 6. Not working – disabled 7. Not working – other	All waves N = 20,024
house_head	Respondents were asked “Is your residence in...” with response options “Your name only,” “Your name with someone else’s name (jointly owned or rented),” or “Someone else’s name only.” Respondents who said “Someone else’s name only” were coded as 0 = “Not head of household;” the other two responses were coded as 1 = “Head of household”	1. Not head of household 2. Head of household	All waves N = 20,024
house_size	Respondents were asked two questions: “Including yourself, how many people are 18 years of age or older and currently live in your household at least 50% of the time? Please include unrelated individuals (such as	Open-ended	All waves N = 20,024

	roommates), and also include those now away traveling, away at school, or in a hospital” and “Next, how many people are 17 years of age or younger and currently live in your household at least 50% of the time? If none, enter 0. Include babies and small children.” Responses to these questions were combined to calculate overall household size.		
house_ages0to1	Please tell us a little more about the people you share your household with. For each person in your household (up to 10 people), enter their age on their last birthday and indicate if they are male or female. For infants who are less than 1 year old, please enter a 0 for age.	Open-ended	All waves N = 20,024
house_ages2to5			
house_ages6to12			
house_ages13to17			
house_ages18plus			
house_type	Which best describes the building where you live?	1. One-family house detached from any other house 2. One-family house attached to one or more houses (such as a condo or townhouse) 3. Building with 2 or more apartments 4. Mobile home 5. Boat, RV, van, etc.	All waves N = 20,024
house_own	Are your living quarters...	1. Owned by you or someone in your household 2. Rented 3. Occupied without payment of rent	All waves N = 20,024

## Climate Change in the American Mind (2008-2017) Data Tables

These tables include responses to each survey question by year. The data are weighted to align with U.S. Census parameters and adjusted by sample size (using the “weight\_aggregate” weight in the data file) to account for the different number of respondents from wave to wave. For tabulation purposes, percentage points are rounded to the nearest whole number. As a result, percentages in a given chart may total slightly higher or lower than 100%. The response options for many questions can be collapsed into single categories. For more information on computing these categories, visit the [Climate Change in the American Mind \(CCAM\) Explorer](#) and/or download our SPSS syntax on our [Open Science Framework](#) page. Note: \* refers to percentages below 0.5% and -- refers to cells with zero respondents.

### Global Warming Beliefs

**happening.** Recently, you may have noticed that global warming has been getting some attention in the news. Global warming refers to the idea that the world’s average temperature has been increasing over the past 150 years, may be increasing more in the future, and that the world’s climate may change as a result. What do you think: Do you think that global warming is happening?

	2008	2010	2011	2012	2013	2014	2015	2016	2017
Unweighted <i>n</i>	2,164	2,025	2,010	2,069	1,875	2,288	2,593	2,430	2,570

A great deal	45%	41%	39%	43%	43%	45%	42%	49%	52%

**when\_harm\_US.** When do you think global warming will start to harm people in the United States?

	2008	2010	2011	2012	2013	2014	2015	2016	2017
Unweighted <i>n</i>	2,164	2,025	2,010	2,069	1,875	2,288	2,593	2,430	2,570
Refused	3%	3%	2%	2%	2%	1%	*	*	*
Never	14%	21%	18%	15%	17%	17%	19%	15%	14%
In 100 years	12%	14%	13%	14%	12%	13%	12%	10%	12%
In 50 years	13%	12%	13%	13%	11%	14%	11%	11%	12%
In 25 years	13%	12%	13%	12%	13%	14%	14%	14%	13%
In 10 years	13%	12%	10%	12%	10%	9%	12%	13%	11%
They are being harmed now	33%	26%	30%	32%	34%	33%	33%	37%	38%

## Policy Support

How much do you support or oppose the following policies?

**reg\_CO2\_pollutant.** Regulate carbon dioxide (the primary greenhouse gas) as a pollutant.

	2008	2010	2011	2012	2013	2014	2015	2016	2017
Unweighted <i>n</i>	2,164	2,025	1,000	2,069	1,875	2,288	2,593	2,430	2,570
Refused	5%	3%	5%	6%	5%	2%	1%	1%	2%
Strongly Oppose	7%	12%	7%	10%	11%	11%	10%	10%	8%
Somewhat Oppose	13%	13%	19%	16%	16%	15%	15%	15%	15%
Somewhat Support	48%	47%	45%	46%	44%	46%	45%	45%	43%
Strongly Support	28%	24%	24%	22%	23%	26%	29%	29%	32%

**reg\_utilities.** Require electric utilities to produce at least 20% of their electricity from wind, solar, or other renewable energy sources, even if it costs the average household an extra \$100 a year.

	2008	2010	2011	2012	2013	2014	2015	2017
Unweighted <i>n</i>	2,164	2,025	2,010	2,069	1,875	2,288	1,263	1,304
Refused	5%	3%	5%	5%	4%	2%	1%	3%
Strongly Oppose	11%	19%	14%	15%	17%	18%	14%	14%
Somewhat Oppose	16%	21%	20%	21%	24%	22%	18%	22%
Somewhat Support	39%	38%	40%	40%	40%	37%	42%	37%
Strongly Support	29%	19%	22%	19%	16%	22%	24%	25%

**fund\_research.** Fund more research into renewable energy sources, such as solar and wind power.

	2008	2010	2011	2012	2013	2014	2015	2016	2017
Unweighted <i>n</i>	2,164	2,025	2,010	2,069	1,875	2,288	2,593	2,430	2,570
Refused	5%	3%	4%	5%	4%	3%	1%	1%	2%
Strongly Oppose	2%	4%	5%	8%	10%	9%	7%	6%	5%
Somewhat Oppose	6%	10%	13%	12%	15%	12%	11%	11%	9%
Somewhat Support	37%	43%	38%	43%	42%	43%	42%	42%	41%
Strongly Support	51%	40%	39%	32%	29%	34%	38%	39%	44%

**reg\_coal\_emissions.** How much do you support or oppose the following policy? Set strict carbon dioxide emission limits on existing coal-fired power plants to reduce global warming and improve public health. Power plants would have to reduce their emissions and/or invest in renewable energy and energy efficiency. The cost of electricity to consumers and companies would likely increase.

	2013	2014	2015	2016	2017
Unweighted <i>n</i>	1,045	2,288	2,593	2,430	2,570
Refused	4%	1%	1%	1%	1%
Strongly Oppose	16%	14%	13%	12%	13%
Somewhat Oppose	20%	20%	18%	17%	17%
Somewhat Support	42%	45%	45%	46%	42%
Strongly Support	18%	21%	23%	24%	27%

## Information Acquisition and Communication Behaviors

**discuss\_GW.** How often do you discuss global warming with your family and friends?

	2008	2010	2011	2012	2013	2014	2015	2016	2017
Unweighted <i>n</i>	2,164	2,025	2,010	2,069	1,875	2,288	2,593	2,430	2,570
Refused	1%	1%	2%	1%	1%	*	--	--	--
Never	26%	27%	28%	32%	31%	33%	34%	32%	28%
Rarely	33%	36%	40%	39%	39%	37%	36%	36%	36%
Occasionally	35%	29%	26%	25%	26%	26%	26%	27%	30%
Often	5%	5%	4%	4%	4%	3%	4%	5%	5%

**hear\_GW\_media.** About how often do you hear about global warming in the media (TV, movies, radio, newspapers/news websites, magazines, etc.)?

	2015	2016	2017
Unweighted <i>n</i>	2,593	1,204	2,570
Refused	1%	*	1%
Not sure	13%	15%	12%
Never	6%	7%	6%
Once a year or less often	8%	8%	8%
Several times a year	28%	26%	25%
At least once a month	22%	22%	24%
At least once a week	22%	22%	23%
